SUMMARY

Software Developer with **3+ years of experience** building modern, responsive, and scalable web applications. Frontend with **React, TypeScript, JavaScript (ES6+), HTML5, CSS3, and Tailwind CSS** — **componentization, design systems** (shadcn/ui, Radix UI), **accessibility (WAI-ARIA), REST API integration, automated testing** (Vitest/Jest, Playwright), and **UI validation**. Backend with **C#, ASP.NET Core, Node.js, Express.js, REST APIs, and PostgreSQL**. I aim to build intuitive, well-structured, high-quality solutions, collaborating with teams in agile methodologies to turn business requirements into reliable, user-centric products.

PROJECTS

- LUCRAÍ — Financial Management SaaS (B2B)** May 2026 – Present
Next.js • React • TypeScript • Tailwind CSS • .NET • PostgreSQL **DEPLOY | GITHUB**
- Developing a **full-stack financial SaaS (MVP)** end-to-end as **lead developer** of a two-person team (**140 of 195 commits, 72%**), spanning database, API, UI, tests, and deployment
 - Designed a **REST API with 24 controllers and 138 endpoints** following **Clean Architecture** and **SOLID**, with 22 repositories, centralized dependency injection, and 35 FluentValidation validators
 - Implemented **JWT authentication with rotating refresh tokens, RBAC, and multi-tenant data isolation** via EF Core global query filters on **23 of 25 entities**, validated by 4 integration tests
 - Built the frontend with **React 19 / Next.js 15 (App Router)** and strict TypeScript: **23 reusable, accessible components** (shadcn/ui + Radix), **14 API repositories**, and **SSR + SEO**
 - Wrote **87 xUnit tests, 7 Vitest suites, and 6 Playwright E2E flows** covering critical financial rules
 - Set up an automated **CI/CD Pipeline** (build, tests, and Docker validation) with deployment to **Vercel/Railway**, collaborating with Backend and QA in an agile rhythm
- HabitTrack — Habit Manager (SPA)** Nov 2025
React • TypeScript • Tailwind CSS • Recharts **DEPLOY | GITHUB**
- Developed a full **Single Page Application (SPA)** using **reusable components, Context API, and custom Hooks**
 - Built an interactive **analytics dashboard** using Recharts to visualize habit metrics
 - Implemented daily reset logic and persistent storage via **Local Storage**
 - Built a fully **responsive UI** with **Dark Mode** using Tailwind CSS
- Overmatch English Classes — Institutional Landing Page** Jan 2023
HTML • CSS • JavaScript **DEPLOY | GITHUB**
- Built an institutional website for an English course (currently Phenom Idiomas)
 - Implemented a complete page with **contact form, testimonials, and location section**
 - Structured a **fully responsive layout** with **interactive features**
